Microsoft Teams **Corporate Adoption Program**

Overview

The Microsoft Teams 30-Day Corporate Adoption Program is for organisations who are adopting Microsoft Teams across their corporate environment. It leads you through a journey to design and deliver your optimal business collaboration and communications hub.

This will enable:

- Leadership and Executive Engagement
- Manager and Team Empowerment
- End-User Adoption

Program Details

The Microsoft Teams Corporate Adoption Program runs over 30 days and is designed to have a long-term impact on your internal staff, your customers and your suppliers.

During the Adoption Program we work with your Leadership Team and IT Experts to customise your Microsoft Teams adoption to your organisation's unique culture. This allows communications and collaboration to be aligned across your business.

Your corporation is unique, with specific challenges that require their own development needs. We therefore provide a blend of consultation workshops and delivery methods designed to suit your business model and achieve maximum sustainable impact.

Outcomes

Throughout the Adoption Program, we work with your systems integrators and business representatives to implement the 4-Phase program. This results in highly engaged attendees, who adopt their new skills and techniques into their own business context.

Upon successful completion of the 30-day adoption program, you and your team will have unlocked your Office 365 technology, to create game changing communications and collaborations.

- Improve your Operations
- Transform your Productivity
- Provide a better Customer Experience
- Improve Employee Engagement
